**NOTE:** The instruments found on these sheets are the best recommended brands and models to obtain. They are very reliable and, most importantly, very durable. These brands and models are well known and will optimize your ability, growth, and learning.

Beware of buying instruments online. There are many instrument manufacturers that make extremely enticing and inexpensive instruments. Some companies even color their instruments red, green, blue, and black to attract customers as a gimmick. Though they may seem fine at first they can malfunction very easily and repair shops have been known to refuse repair due to cheap parts and un-repairability. **"If it's too good to be true, it probably is."**
