*Metronome is also for home use in 6th grade. Many metronome apps can be found for free through your phone app store or school device. If you're looking for an app that is also a tuner, we highly recommended Tonal Energy. This app may be found on the app store and is approx. \$4. It is one of the best out there and Mrs. Tran & Mr. Macias use it too! We require the Korg TM-60 for 7th/8th grade in-class usage.
